Assembling Instructions for Kit Glass Top/ Ball Routing – Soccer Table STORM Series

Unscrew inside the bolts and remove the balls holder tray.

Place the "t" shaped part of the kit in the right position as indicated in the picture. If the holes don't match, extend them with the help of a screwdriver.

Fix the "t" shaped part from the inside using the nuts and the rings removed before from the balls holder tray.

Drill the door with a tip of 8 mm and insert the bolt with round cap provided with the kit.

Fix the "t" shaped part from the inside with nut and ring.

Lay the frame with the glass on the playfield.

Balance/center the playfield according to the soccer table's size.

Drill with a tip of 8 mm the 4 fixing points on both sides of the scoremarkers. Insert in the hole the bolt with round cap and fix it with nut and ring.

Kit composed by:
1 frame with glass on top
1 "T" shaped element
5 bolts with round cap
5 rings
5 nuts
